In her negotiations with Uncle Sam Queen Lilandsforth seems to forget that her throne at present is out of sight.

Hon. Claude Thomas, Representative in the last General Assembly from Bourbon county, wants to go as Minister to Brazil.

Already the air is rent by Democratic shrieks against the Democracy's Tariff smashing programme. The shriekers should have protested last November.

Great Britain doesn't want the United States to have Hawaii. Therefore the Mugwumps have discovered that to annex Hawaii would be a very sinful thing.

Imports to this country from Sheffield fell off about \$1,000,000 from 1890 to 1892. Under the McKinley law we now make the things formerly brought from Sheffield. That is the explanation.

Congressman Cummings was not far out of the way the other day when he characterized the attacks of his fellow Democrats on the pension laws as "bully-headed, brutal and brutalizing."

Lancashire cotton spinners are at last submitting to the reduction in wages and returning to work after their long strike. We do not expect to see any very extensive comment on this event in the Free-trade press.

Since the close of the war this country has paid about \$2,500 millions as interest on its National debt. Total pension payments up to date aggregate \$1,600 millions. We have been more liberal with the bondholder than with the soldier.

A. C. Beckwith, the new Democratic United States Senator from Wyoming, is the richest man in that state. His possessions include a bank, great herds of cattle and tracts of r-range, coal mines and coal and timber land. He breeds trotters on the finest farm in the Rocky Mountains. Thus it is again shown that the Democratic party is the foe of the plutocrat.

The Albany Times, a strong Democratic paper, calls attention to the fact that of the 277 electoral votes cast for Mr. Cleveland 138 were cast by Northern states and 139 by Southern states, and that at the 217 Democratic members of the next House of Representatives 108 are from the North and 109 from the South. In selecting three Secretaries from the South, therefore, Mr. Cleveland simply recognizes his obligations to that section.

The New York Evening Post sneers at the substitution of the American flag for the British emblem on the New York and the Paris. In the estimation of this able British organ the naturalization of the two splendid steamships, with the resulting addition of four or five great ocean greyhounds to the merchant marine and auxiliary navy of the United States is a "schoolboy affair." This is quite sad, but the chances are that the Nation will be able to endure it.

In the literary cuse who borrowed "Daniel Deronda" from THE LEDGER office when no one was looking at him will have the kindness to return the same he will receive many thanks and a month's subscription to the paper.

DUKE SMITH, son of General Green Clay Smith, shot Harry O. James, keeper at the Windsor Hotel, Paris. James said that Smith owed him a \$30 bar bill. Smith called James a damned liar, and James knocked him down, when Smith shot at him four times, hitting him once, inflicting a slight flesh wound in the upper part of the leg. Smith is a Government Storerkeeper at the Peacock Disillery at Kiseron.

PENNSYLVANIA chap who wanted to kill a dog ditched him on a tree and tied a dynamite cartridge to him. Then he took off the explosive and ran home. The dog broke the hitching strap and followed. The three entered the house together—man, dog and dynamite. It will never be explained why the man, and the dog confined their attentions to one another and left the man and the house and there doesn't seem to be any moral involved, either.

The females of this tribe grow to be very tall, often reaching the height of 15 feet. Mrs. Congo on measurement fell short 3 inches. Another characteristic is the husband never goes with the wife, but always goes and comes alone. This was carried out in this case.

FRACTICAL PHILANTHROPY.

Here's a Newport Man Whose Heart is in the Right Place.

THE LEDGER believes in speaking a good word for every man who does a generous deed, and speaking it while the subject is living. There's too much post mortem praise, which does no good to any one.

Patrick Ratican, one of the best known Irishmen in Newport, when he died a few months ago left his little homestead with a big mortgage upon it. His wife followed him to the grave a short time afterward, leaving five children, the oldest 18 years old, to earn their own living.

The eighteen-year-old boy made a game fight, and has been providing and caring for his little flock ever since, but found that there was danger of their home being sacrificed on account of the debts upon.

Overreacher of the Poor Louis Ernest heard of the case and at once made the necessary arrangements by standing good for the debt and causing the Building Association to keep its hands off, and the young man is to have his own time now in paying for his little home.

This was but a small favor to the Overseer, but to the little fatherless and motherless orphans it meant more than the mind of man can imagine, and they all deeply appreciate the kindness.

Let the name of Louis Ernest be remembered on earth, as his generous act is surely recorded in Heaven!

The Emperor Frederick of Germany has, it is said, succeeded in bringing about a reconciliation between Emperor William and the Duchess of Sparta, the Emperor's favorite sister. The estrangement was because of a religious dispute.

The Populist members of the fighting Kansas Legislature have decided to dissolve their House organization and go into the House organized by the Republicans.

SENATOR VOREEKE's public declaration that President HARRISON's foreign policy would pass into history and challenge the admiration of the world is one of the highest compliments ever paid to an outgoing President by one of his most distinguished political opponents. There is little comfort in it for the sored souls of our New York Mugwumps.

THE cause of gold exports and the reason it is thus described by WINTHROP SMITH, banker: "The whole trouble lies in the fact that Europe has not as much gold as there is needed to do the business that is done there. The reason why this affects us is because we allow Europe to great control over our trade. If SECRETARY FOSTER should sell \$5,000,000 United States bonds in London, Paris and Berlin next week, and ship the gold proceeds direct to Washington on a government vessel, and give notice that he proposed to continue the operation while gold was purchased in New York for export, to the extent of \$50,000,000 or \$60,000,000, the withdrawals of gold to Europe would cease in ten days."

POSTMASTER GENERAL WANAMAKER says that the popularity of the Columbian postage stamp is the best attested by the financial results attending their issue. During January, 1892, at 103 first class offices the sales of stamps amounted to \$1,870,483, while in January of this year the amount was \$2,254,176, of which \$1,708,666 were from the Columbian. The people from their own choice have bought three of the new to one of the old stamps, and the total increase of sales for the month was a fraction more than 20 per cent. The sales at the Mayville Postoffice for the month of January this year were nearly \$200 in excess of those for the corresponding month of last year.

HON. THEODORE HALLAM of Covington recently brought suit against the Cincinnati Post Company for libel. The case has been on trial in the United States Court for some time, and yet there has not been a word said about it by any of the Cincinnati papers. It developed in the evidence that the papers had entered into a compact not to print the fact that any of them had been sued for libel. In other words, they should prove false to their patrons by suppressing news which the public had a right to know regarding themselves, while their columns should continue teeming with the slimes of scandal that affected private individuals alone. For a truth, Cincinnati journalism is at a low ebb.

War and glory have been costly things to France. Between 1792 and 1815 she sacrificed one-half of the 4,500,000 soldiers whom she sent to fight her battles. War has cost her in this century not far from 6,000,000 lives.

GOV. M'KINLEY

Not the Indorser But the Maker of the Notes,

And Was a Partner With Walker in Some of the Enterprises.

Over Two Hundred Thousand Dollars Worth of His Paper Out—A Pennsylvania Coal Venture Collapsed, and That Precipitated the Big Crash.

COLUMBUS, O., Feb. 28.—Like a thunderbolt from a clear sky came the news that McKinley had been made a bankrupt through the treachery of a friend, a man named Walker, who was engaged in various enterprises, who had induced McKinley to make him a neighbor, to indorse for him and, failing, had dragged the governor down. The governor, so the story went, was an innocent and abused party.

He had relied on his friend's honesty, had never kept account of his indorsements, and had been led to act freely and rapidly as they were asked.

Now comes a second chapter. It is a story that is being whispered about among a few who claim to know, and it puts the affair in a different light.

It puts the blame in the conduct of a man who was not simply an accommodation indorser for a friend—a sufferer by that friend's treachery, but a man who knew exactly what he was about.

The idea of going to the governor's rescue financially by the raising of a fund among all classes of the public willing to contribute will now no doubt be abandoned. It may be stated, that the belief has been expressed that there is no intention to use the separate estate of the deceased John McKinley, wife, of which Myron Herrick, the Cleveland, her made trustee.

The story goes that Gov. McKinley's liabilities, instead of being \$118,000, are now \$200,000, and that the governor is not merely an indorser of his notes, but was involved in the transaction, as first reported, but the maker of these notes, which are floating about the country in amounts ranging from \$1,000 to \$500.

These notes, it is claimed, were made by the governor to Robert Walker, of Youngstown, whose recent failure brought on the crash, and represented thousands of dollars used in a coal mine venture near Connellsville, Pa., in which McKinley and Walker were jointly interested.

The notes in question have been running, it is said, for four or five years, and the wonder has been among those aware of the situation that the crisis was not sooner reached.

Viewed in another light as it is thrown around it by the story now told, the whole affair puts the governor in the position of a man who ventured and lost, not that of a man who was overruled by misfortune through the fault of others.

There is another story to the effect that an individual named Andrew J. Duncan, who formerly lived in this state, but who is now in the far west, and who claims to be a brother-in-law of Gov. McKinley, was a partner with the governor and Walker in a stamping mill project, but was frozen out of the firm.

YOUNGSTOWN, O., Feb. 28.—In regard to the story that Gov. McKinley's loss may have been from a note which bears the name of Gov. McKinley as principal and Walker as indorser.

The friends of McKinley, who are trying to make the governor pose as a victim of a friend's treachery, say in explanation of this that the governor signed the notes that way so that it would be easier for Walker to get money.

AN OPEN LETTER

From Gen. Buckner to Gov. Brown—Will It Lead to Pistols?

FRANKFORT, Ky., Feb. 28.—Ex-Gov. S. B. Buckner Monday published an open letter to Gov. John Young Brown, giving him a copy of a message of Gov. Brown, in regard to the penitentiary management of this state. In which Gov. Buckner's administration is severely criticized, which has put the state capital into a fever of excitement.

Gov. Buckner charges Gov. Brown with having been a traitor, and lays out broad intimation that he wants to settle the controversy with pistols. It is expected here that should the distinguished gentlemen meet at an early day a pistol duel will follow, and in both are the embankment of courage, somebody will get hurt.

Gov. Brown, it is understood, will reply to the open letter and exciting times are looked for here.

Julia Force Doubts Justice.

ATLANTA, Ga., Feb. 28.—Miss Julia Force, the murderess, is still a prisoner. She has admitted to the chief of police a written statement of her matter. The statement covers about twenty pages of foolscap, and says that she killed her sister, because she was jealous of the attention her mother and brother were showing toward the latter. The statement also evinced that the writer's insanity. The Force brothers have employed the best legal talent in the state to defend the murderer, and will make a stubborn fight for her.

Carnegie Turn Free Trader.

NEW YORK, Feb. 28.—A Washington newspaper says that the Carnegie brothers are discussing with great interest a report which has gained wide circulation that Andrew Carnegie, the Pittsburgh millionaire, has become a free trader. It is stated that Carnegie is now as much an anti-protectionist as Henry Watterson. How George other free traders could wish! Many republicans, claiming to be true to Mr. Carnegie, assert that this is true.

Mackay's Assassins Still Alive.

SAN FRANCISCO, Feb. 28.—It is still alive, and probably as strong as ever, the thousand dollar reward. He has partly got intervals, but has yet given no satisfactory statement why he committed the deed. Mackay is rapidly improving.

STEVENSON STARTS

On His Way to Washington—His Agent and Febe Mother Kisses Him Good-by.

BLOOMINGTON, Ill., Feb. 28.—This city was the scene of departure for the newly elected vice-president and his escort for Washington, and never since the memorable June evening, when Mr. Stevenson returned from Chicago as the nominee, has there been greater interest in the political festival. By 7:30 o'clock Monday morning the railroad station platform was thronged with citizens.

The hour of departure had been announced at 8 o'clock, and a few minutes before that time the special train, which had been prepared backed into the station.

The private car Glacier, which was to be Vice-President Stevenson's own quarters, was the rear car, while ahead came the John Rice of the city, the train in six other coaches and a sleeping car.

On the first coach was a long banner with the words: "Illinois Club, Bloomington," while upon the car ahead of the Glacier was another banner, inscribed "Stevenson's Escort."

At 7:45 the vice-president's carriage arrived at the depot at 7:50, and in the carriage with him were his wife and son, Louis, and Mrs. M. T. Scott, his sister-in-law. The other members of the family followed in a motor car.

Up to the station the vice-president's carriage gave a cheer to which he bowed. The Glacier being the last car on the train, Mr. Stevenson was obliged to pass through the entire length, his hand being shaken by all who could approach him.

Some minutes were consumed before he and his family were safely seated in the car. Then the hundred or more citizens who are to go to Washington with him boarded the other cars, and while shouting their farewells.

The train, after a passing reverie as the train steamed away, Mr. Stevenson's parting with his mother was particularly touching. Owing to her feeble health the venerable lady could not accompany him. She kissed her boy good-by at the house.

COVERED WITH BARNACLES.

Must Be Decked.

WENDELL, Feb. 28.—General Oberndorf brought some very interesting information with him concerning the ships of the flying squadron. The battleships in sheathing are taking much comfort from the intelligence that the ships of the fleet were materially improved in their protection by the addition of the ironclad hulls of the vessels. There were no huge growths, such as is sometimes the case with ships which have been long service in the Pacific, but the bottoms of the vessels were covered with minute barnacles, which gave the hulls the appearance of immense sheets of sandpaper.

This microscopic roughness was sufficient to interrupt the speed as the journey continued, and during the last month the average speed had been decreased two knots per hour from the speed of starting. The ships will have to be docked in order that they may make a decent showing in speed at the coming naval pageant in the Hampton Roads at New York.

It is estimated that the cost of fuel alone to bring these ships around from San Francisco is about \$120,000. This sum is more than it would ordinarily be on account of the marine growth on the bottoms of the ships.

With this the vice department received information through its agents abroad of the details of the new warship to be laid down at the Chatham dock yard for the British navy, and the cost of the ironclad class of the royal sovereign class, which is a speed of eighteen knots, which may be sustained by the sheathing of the hull.

For the latter three and a half inch teak will be used, covered with copper, which will enable the ship to keep sea for lengthened periods without docking.

Not the Indorser But the Maker of the Notes,

And Was a Partner With Walker in Some of the Enterprises.

Over Two Hundred Thousand Dollars Worth of His Paper Out—A Pennsylvania Coal Venture Collapsed, and That Precipitated the Big Crash.

COLUMBUS, O., Feb. 28.—Like a thunderbolt from a clear sky came the news that McKinley had been made a bankrupt through the treachery of a friend, a man named Walker, who was engaged in various enterprises, who had induced McKinley to make him a neighbor, to indorse for him and, failing, had dragged the governor down. The governor, so the story went, was an innocent and abused party.

He had relied on his friend's honesty, had never kept account of his indorsements, and had been led to act freely and rapidly as they were asked.

Now comes a second chapter. It is a story that is being whispered about among a few who claim to know, and it puts the affair in a different light.

It puts the blame in the conduct of a man who was not simply an accommodation indorser for a friend—a sufferer by that friend's treachery, but a man who knew exactly what he was about.

The idea of going to the governor's rescue financially by the raising of a fund among all classes of the public willing to contribute will now no doubt be abandoned. It may be stated, that the belief has been expressed that there is no intention to use the separate estate of the deceased John McKinley, wife, of which Myron Herrick, the Cleveland, her made trustee.

The story goes that Gov. McKinley's liabilities, instead of being \$118,000, are now \$200,000, and that the governor is not merely an indorser of his notes, but was involved in the transaction, as first reported, but the maker of these notes, which are floating about the country in amounts ranging from \$1,000 to \$500.

These notes, it is claimed, were made by the governor to Robert Walker, of Youngstown, whose recent failure brought on the crash, and represented thousands of dollars used in a coal mine venture near Connellsville, Pa., in which McKinley and Walker were jointly interested.

Viewed in another light as it is thrown around it by the story now told, the whole affair puts the governor in the position of a man who ventured and lost, not that of a man who was overruled by misfortune through the fault of others.

There is another story to the effect that an individual named Andrew J. Duncan, who formerly lived in this state, but who is now in the far west, and who claims to be a brother-in-law of Gov. McKinley, was a partner with the governor and Walker in a stamping mill project, but was frozen out of the firm.

YOUNGSTOWN, O., Feb. 28.—In regard to the story that Gov. McKinley's loss may have been from a note which bears the name of Gov. McKinley as principal and Walker as indorser.

The friends of McKinley, who are trying to make the governor pose as a victim of a friend's treachery, say in explanation of this that the governor signed the notes that way so that it would be easier for Walker to get money.

AN OPEN LETTER

From Gen. Buckner to Gov. Brown—Will It Lead to Pistols?

FRANKFORT, Ky., Feb. 28.—Ex-Gov. S. B. Buckner Monday published an open letter to Gov. John Young Brown, giving him a copy of a message of Gov. It is expected here that should the distinguished gentlemen meet at an early day a pistol duel will follow, and in both are the embankment of courage, somebody will get hurt.

Gov. Brown, it is understood, will reply to the open letter and exciting times are looked for here.
